“ StressedTamilian was probably the most helpful person I have ever spoken to here on 7cups, and that is saying quite a lot. He was very empathetic and knowledgeable. I came to the conversation very confused, but he helped me to organise my thoughts and see a way out of my problems. I am really glad I connected with him. ”

opened my eyes on what really goes on in my mind and how it translates into my destructive behavior. I'm over that period when I needed someone to simply comfort me and listen to me. I need a change. I feel I'm ready. I've been reading, researching online, trying to analyze myself, but never have I ever had such an understanding as after our conversation. Thank you so much for being here on 7cups available to us who have no other chance to communicate with a professional like you. If you're not already, I'm sure you'll be an amazing and appreciated therapist, not only a listener. ”

“ Thank you so much one more time for being there when there no one else to listen and to guide. I appreciate your help endlessly and it gives me strength and courage to move on. Forward to a brighter and better tomorrow. ”
